Part No. AH-1220-G (PassagePoint Global), AH-1220-EDU (PassagePoint EDU)

Customized Self-Service Registration or Floating Ambassador Reception

Use the Microsoft Surface Pro Tablet combined with the power of PassagePoint to create a self-service or mobile Visitor Management Security Solution. This versatile tablet makes it easier than ever to automate the process of screening, validating and monitoring Visitors across your enterprise.

Features & Benefits

- Utilize the embedded camera to quickly capture the Visitor's photo
- Draft your own agreement or NDA and require Visitors to sign directly on tablet and store for your internal records
- Display a safety training video on tablet and capture signature for acceptance
- Ask mandatory pre-entry questions related to COVID & allow/deny entry based on Visitor's response
- Use tablet near temperature detection station and record Visitor temperature into PassagePoint for automated pass/fail notification
- Pre-registered Visitors can simply scan an e-Visit pass to sign-in quickly and easily
