Part No. AH-1095

## Linear-Imaging Scanner

### Scan Bar Codes for Easy Check in/out

The CR1000 is a compact, cabled area imager that takes up limited workspace without compromising on barcode reading performance. The CR1000 has an aggressive scan engine that rapidly decodes 1D, 2D barcodes including QR codes. Designed with an auto-detect stand feature, the CR1000 seamlessly transitions from in-stand to out-of-stand barcode reading.

## Features & Benefits

- Reads all 1D, 2D barcodes including QR codes.
- Reads barcodes off mobile device screens.
- Operates hands-free when placed in stand.
- Extremely low power consumption.
- Includes a 6' straight USB cable and stand.

### Specifications
