

Restricted / Denied Party Screening

Part No: MA-MKD

Process Visitors with Peace of Mind

STOPware has partnered with the industry leader who consolidates the many sources of restricted/denied parties' listings into one searchable database. Now, PassagePoint can screen all visitors against a real-time, on-line screening of Restricted / Denied Party Screening for:

ECCN Classification, ITAR, BIS, OFAC, License Management, Travelers & Visitors, Export Documentation, Regulations & Resources.

Features & Benefits

- Instantly screen all visitors, including contractors and vendors, against the denied party lists before letting them into your facility.
- Pre-screen applicants, temporary personnel and visitors for added security.
- During visitor sign-in, perform a manual search with the push of a button or set PassagePoint to automatically trigger a search during every visitor sign-in.
- Automatic e-mail notification sent positive match is found during search.
- Perfect solution for U.S. exporters, financial institutions and freight forwarders.
