Use Photos on Badges for Extra Security

The Logitech HD Pro Webcam C920 is HD in every way. You can record in Full HD 1080p or make a video call in HD 720p. The 15 Megapixel web camera features Carl Zeiss lens with autofocus for crystal clear images. With a mere click, you upload your videos and images to Facebook or You Tube. With RightLight 2 technology, it delivers clear images even in poorly lit or dim settings. Tripod compatibility, motion detection and face tracking make this webcam a top choice.

Specifications
