Self-service Visitor Management & Check-in Verification Solution

Self-service visitor sign-in solutions are more important than ever before, especially for social distancing.

The PassagePoint Wallmount Kiosk allows visitors to quickly and easily self-register at your facility while limiting interaction with lobby and security personnel.

Kiosk includes PassagePoint Client License.

Features & Benefits

- Customizable kiosk screen graphics and workflow.
- Convenient size designed for wall mounting with optional side shelves.
- Reduce costs by reducing workload on front desk & security personnel.
- Capture visitor photo with built-in web camera.
- Create a contactless visitor sign-in by utilizing E-Visit Pass and PassagePoint Web Pre-Registration.
- Improve safety & security in your facility with the ability to cross reference Internal Watchlists.
- Display on-screen safety and/or instructional videos.
- Quickly produce an instant visitor badge.
- Ability to restrict kiosk registration to only Pre-registered visitors.
- Deploy as a standalone or networked solution.
