

Honeywell 3820 Bluetooth Wireless Barcode Scanner

Part No. AH-1093

Use a Wireless Barcode Scanner to Track Visitors and Adhere to Visitor Limits

Quickly scan barcodes on visitor badges for easy check-in / check-out

Honeywell's 3820 Wireless-Linear Imaging Scanner combines imaging technology with Bluetooth wireless connectivity to provide class-leading performance and durability for wireless bar code reading! With no moving parts and a robust durable design, the 3820 will provide fast and efficient service.

Combined with PassagePoint Global software you can create a streamlined and wireless Visitor Management Solution!

Features & Benefits

- Superior read range - Read range out to 24" on the bar codes
- Fast and aggressive decode - 270 scans per second scan rate and software digitalizes quickly processes the data and transmits into PassagePoint
- Wireless connectivity - Bluetooth v2.0 radio enables movement up to 33 feet (10 m) from the base, and reduces interference with other wireless systems
- Battery - A long-lasting, field-replaceable, high-capacity lithium ion battery provides up to 57,000 scans per full charge with no conditioning required

Specifications

Dimensions: (LxWxH) 6.5" x 3.2" x 6.2"
Weight: 9.2 oz

Manufacturer Warranty:
3-year factory warranty

Scan Pattern: Linear image
Charge Time: 4 Hours
Hours of Operation: 16 Hours
Scan Rate: 57,000 scans per charge

Print Contrast: 20 % minimum reflective difference
Decode Capabilities: reads standard 1D and GS1 Databar Symbolologies
