

DT 398B Mobile Rugged Tablet

Part No. AH-1210

Slim, Rugged, Multi-Functional Wireless Tablet for Mobile Visitor Management

Combine this DT Research Rugged Tablet with PassagePoint for a complete, real-time client and mobile visitor management solution. The DT398B with Microsoft® Windows 7 Professional enables all PassagePoint features and functionality to run seamlessly in outdoor and remote locations.

Common Uses: Security officers patrolling campuses, guards at contractor entry gates and checkpoints, checking visitors at multiple locations to create accurate audit trails, and those manning parking and dock entrances.
