

Sex Offender Search Module

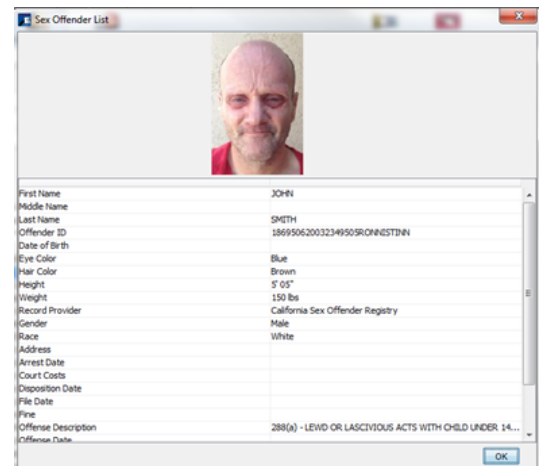

Part No. A-SOR – Single Add-On License / MA-SOR – Unlimited Workstation License

Process Visitors with Peace of Mind

With the push of a button or an auto trigger, PassagePoint provides real-time, online screening of Sex Offender Registries in all 50 states, a large number of Indian Reservations, and U.S. Territories like Guam, Virgin Islands, and the Northern Mariana Islands.

Features & Benefits

- Instantly screen all visitors, including volunteers and vendors, against the Sex Offender Registry before letting them into your facility.
- Pre-screen applicants, temporary personnel and faculty against Sex Offender Registry for added security.
- During visitor sign-in, perform a manual search with the push of a button or set PassagePoint to automatically trigger a search during every visitor sign-in.
- Automatic e-mail notification sent when positive match is found during Sex Offender Registry search.
- Convenient whitelist feature allows false positive matches to be identified and cleared on a whitelist so they are not stopped or inconvenienced during every visitor sign-in.
- Perfect solution for schools and Children’s Hospitals.
